Standard Stone Crusher Plants

20-250 TPH | Project-specific crushing and screening layouts

SREW Projects plant photograph; the image is not a model-specific specification.

Range and selection

Standard plants cover 20-250 TPH. Mini mobile plants cover 2-10 TPH and are listed separately. Feeders, jaw crushers, secondary crushing, screens and conveyors are selected for the material and required product sizes.

20 TPH confirmation

The 20 TPH standard configuration and price require engineering confirmation. The capacity-guide figure is indicative and must not be substituted with an AF slag-processing quotation.

Published model guide

Prices below match the website model table on 11 November 2026. All prices are indicative, ex-works Hyderabad. GST is additional unless the inclusive figure is shown.

Model	Capacity	Configuration	Price
20 TPH standard plant	20 TPH	Project-specific configuration; subject to engineering confirmation	Request a confirmed quotation
30 TPH single-stage plant	30 TPH	Jaw 24x15 + screen + conveyors	INR 38,00,000 + GST (INR 44,84,000 incl. 18% GST)
50 TPH stone crusher plant	50 TPH	Jaw 30x18 + HSI + screen	INR 65,00,000 + GST (INR 76,70,000 incl. 18% GST)
100 TPH stone crusher plant	100 TPH	Jaw 36x24 + cone + screen	INR 1,15,00,000 + GST (INR 1,35,70,000 incl. 18% GST)
150 TPH stone crusher plant	150 TPH	Jaw + HSI/cone + VSI + screens	INR 2,00,00,000 + GST (INR 2,36,00,000 incl. 18% GST)
200 TPH crushing plant with VSI	200 TPH	Jaw + cone + VSI + 3-deck screens	INR 3,10,00,000 + GST (INR 3,65,80,000 incl. 18% GST)
250 TPH 3-stage stone crusher plant	250 TPH	Jaw 42x30 + cone + VSI + 2 screens	INR 3,25,00,000 + GST (INR 3,83,50,000 incl. 18% GST)

Capacity depends on material, feed size, moisture and required grading. The 30 TPH published price is INR 38,00,000 + GST (INR 44,84,000 including 18% GST).
